Summary

Final-year Information Technology student at Thuyloi University (HCMC) seeking a Full-Stack / Frontend Software Engineer Internship. Experienced in building production web applications with React, Node.js, and Python FastAPI, alongside modern AI-assisted engineering workflows (Google Antigravity, Claude Code, Cursor). Passionate about software craftsmanship, highly coachable, and eager to contribute meaningful value to the engineering team. Certified English proficiency at CEFR B1 level.

Education

Thuyloi University — Ho Chi Minh City, Vietnam
Bachelor of Science in Information Technology – 4th Year (Expected Graduation: 2027) — *2023 – Present*

- **English Proficiency**: Certified CEFR B1 Standard (University Exit Benchmark)

Projects

Tuong Tan TOEIC – 4-Skill EdTech Platform | *Live Demo* | *GitHub* — Jan. 2026 – Present

- **Tech Stack**: React 18, Node.js (Express), MongoDB, TailwindCSS, Vite, Web Audio API, JWT Auth, Nginx, Linux VPS.
- **4-Skill Learning Engine**: Engineered a production TOEIC exam platform serving 18,200 ETS practice questions with 4-part explanations, 11,785 dictation audio sentences with text diffing, and 83 SM-2 spaced repetition modules.
- **High-Fidelity Exam Room**: Built a 100vh no-scroll ETS exam simulator with 200-question bubble sheets, single-sentence waveform audio streaming, and zero-spoil interactive blank inputs with auto-advance.
- **Security & Payment**: Integrated Google 1-Click OAuth 2.0, automated VietQR payment webhooks for instant VIP provisioning, and deployed automated 5-step CI/CD pipeline on Ubuntu Linux VPS with Nginx and SSL.

AI-Powered English Learning Platform | *Live Demo* | *GitHub* — Jan. 2026 – Present

- **Tech Stack**: React 19, Node.js (Express), Python (FastAPI), MongoDB, Redis, WebSockets, Docker, Nginx.
- **Microservices Backend**: Designed decoupled backend combining Node.js for business logic/auth and Python FastAPI for real-time speech processing.
- **Real-Time Voice Streaming**: Integrated Deepgram STT and OpenAI API via WebSockets for low-latency voice evaluation (< 1.5s) and automated pronunciation scoring.
- **Infrastructure & Security**: Implemented JWT + Google OAuth2 RBAC, containerized multi-service stack with Docker Compose and Nginx on Linux VPS.

Tuong Hotel – 3D Showcase & Reservation System | *Live Demo* | *GitHub* — June 2025 – Aug. 2025

- **Tech Stack**: React 19, Three.js (@react-three/fiber), Ant Design 5, HTML5, CSS3, i18next, Netlify.
- **3D Graphics & UI**: Built an interactive luxury hotel website featuring 3D graphics rendering with Three.js WebGL, room showcases, and booking flows maintaining smooth 60 FPS.
- **Bilingual Integration**: Integrated Ant Design 5 components and i18next for seamless English/Vietnamese language switching; deployed production build with CI/CD.

Technical Skills

Frontend: React 19 / 18, Next.js, TailwindCSS, Three.js (@react-three/fiber), JavaScript (ES6+), HTML5, CSS3, Ant Design, Web Audio API
Backend: Node.js (Express), Python (FastAPI), RESTful APIs, WebSockets, Mongoose, JWT Auth, OAuth 2.0
Programming Languages: JavaScript (ES6+), Python, C++, Java, SQL
Database & Storage: MongoDB, PostgreSQL, MySQL, Redis
AI-Assisted Engineering: Google Antigravity, Claude Code, OpenAI Codex, Cursor IDE, Prompt Engineering
DevOps & Cloud: Docker, Docker Compose, Nginx Reverse Proxy, Linux VPS (Ubuntu), Git, GitHub, Vercel, Netlify
Foreign Languages: English (CEFR B1 Certified), Vietnamese (Native)
